# Regional West Garden County Foundation

Being a lifeguard is an early pathway to learning about health, safety, responsibility, and community involvement. Lifeguards must be fit, focused and ready to carry out first aid in an emergency. They serve as role models to children and adolescents.

Regional West Garden County Foundation is proud to support the young women and men who serve as lifeguards and we were happy to contribute to the cost of swimsuits for the Garden County lifeguards in support of our community.

Other activities we've recently helped sponsor include: youth volleyball, youth boys' and girls' basketball, high school girls' basketball, high school wrestling, and Garden County Youth Soccer.

Community involvement is an important part of who we are and we're honored to play a role in the health and well-being of our youth.
